KISMAT DAHAL

DATA SCIENCE ASPIRANT & FULL-STACK DEVELOPER

PROFILE

Motivated and analytical individual with a strong foundation in Full-Stack Web Development and a passion for Data Science. Experienced in building scalable web applications, analyzing large datasets, and creating impactful solutions. Eager to apply technical skills and problem-solving abilities in real-world projects and contribute to innovative teams.

PROJECTS

- **BMW Sales Analysis (2020–2025)**
Analyzed and visualized 15,000+ sales records using Python, identifying historical trends and building predictive models for future sales behavior using data visualization libraries like Matplotlib and Seaborn.
- **Gaunle Mart (E-Commerce Platform)**
Developed a full-stack e-commerce website with product management, secure payment integration, user authentication, and responsive UI.
- **Rasilo Suntala (E-Commerce Platform)**
Built a dynamic e-commerce platform with modern UI/UX, cart system, order management, and secure checkout.
- **Makpa School Management System**
Created a full-stack system for attendance tracking, student management, and report generation.
- **Banking Management System**
Developed a banking management application using Python (Backend), React (Frontend), and MySQL (Database).
- **Kismat Note X (Mobile App)**
Developed a feature-rich notebook app using Android Studio with note-taking, organizing, and search functionalities.
- **Hackathons & Group Projects**
Actively participated in hackathons and collaborative projects, enhancing teamwork, problem-solving, and version control skills.
